Breathing suggests restricted airway

GENERAL IMPRESSIONS (overall impression of performance and potential as an event horse)

(Positive Comments)

Well trained and presented
Athletic type
Confident and cleaver

Pleasant and safe
Appears to be excellent Young Rider or Amateur horse

("Needs Improvement" comments)

Will improve with mileage
Style better than scope
Greenness affecting performance

Not able to show true potential today due to _____
Safe and willing but needs more strength and power
Capable but shows limitations
Type may be too heavy to make the time and distance at 3&4* Long format
Nice type, but may not be 3/4*
Capable horse but not for the upper levels
How will he mature?
Needed aggressive ride, creating tension and quickness
Lack of confidence and rideability today
Lacks power and maturity at this stage of development
