calendar at useventing.com
1 eventing companion app
1 easy to use competition
entry program, Xentry

Member rewards
with 22 companies

Award-winning
Eventing USA magazine
printed 6x yearly

A SNAPSHOT:

UNDERSTANDING THE USEA AND US EQUESTRIAN

Equestrians wishing to compete at recognized competitions in the sport of eventing obtain memberships with the United States Eventing Association (USEA) at all levels. At the Modified level or higher, athletes must also obtain a membership with US Equestrian. Both organizations have complementary and collaborative roles in the sport of eventing that help ensure fairness, safety, and welfare in the United States, while promoting and providing education for the sport. The following summarizes their unique and complementary roles.

US EQUESTRIAN

USEF is the national governing body of equestrian sport for the U.S. under the USOPC and the federation for equestrian sport under the FEI.

USEF provides access to and increases participation in equestrian sport at all levels by ensuring fairness, safety, and welfare for 29 breeds and disciplines working with their affiliate organizations, like the USEA.

USEF manages the USEF Official Rulebook and oversees the rule change process, including the final review and approval of all rule changes through the USEF Councils and Board of Directors.

USEF enforces the rules for fairness, safety, and welfare through the Licensed Officials Department, Regulation Department, and Compliance Department.

USEF licenses over 2,400 competitions, tracks points and results for ranking lists for all USEF competitions and USEF Horse of the Year Awards, and monitors competition standards for safety, welfare, and fairness. USEF also licenses and promotes over 116 USEF National Championships.

USEF educates and informs Competing and Fan Members through the US Equestrian Learning Center, SafeSport Training, US Equestrian Magazine, Equestrian Weekly, and USEF Network livestreams and on-demand content.

USEF licenses officials, provides education for stewards and technical delegates, and manages SafeSport Training and criminal background checks for all USEF officials.

USEF coordinates with the FEI on licensing FEI competitions, licensing, rule changes, and the international competition calendar.

The USEF Foundation raises funds to support developing and High Performance programs in the eight FEI disciplines. USEF also facilitates and manages numerous donations/grants and sponsorships to fund National Championships. The USEF Equine Disaster Relief Fund aids horses impacted by natural disasters.

USEF selects and supports our United States Equestrian Teams, and USEF works with USEA to create opportunities along athlete pathways.

USEA

USEA is the recognized national affiliate for eventing under the USEF. The USEA is the unified voice for all eventers in the U.S.

USEA advances the sport of eventing through education of riders, trainers, officials, and organizers, with the health and well-being of the horse of paramount importance. The organization is committed to providing eventing enthusiasts with a competitive level suited to their individual skills.

USEA proposes rules to the USEF for approval. Through its committees, the USEA creates guidelines, including policies, procedures, and protocols for USEA programs and tests.

USEA does not have a disciplinary or regulatory role.

USEA registers and recognizes over 230 eventing competitions annually, tracks points and results for eventing competitions and USEA programs and championships. The USEA also registers educational activities and test events.

USEA educates and informs members and fans through the *useventing.com* website, *Eventing USA* magazine, weekly e-newsletters, the USEA podcast, social media, and regularly available content. The USEA also runs educational programs, seminars, and symposiums for riders, trainers, owners, and officials.

USEA provides the educational training programs and final exam to fulfill the USEF licensing requirements for eventing officials. USEA also provides the continuing education clinics for existing licensed officials.

USEA works under the USEF as an affiliate and is directly involved in the development of the international competition calendar.

USEA Foundation protects and preserves the sport of eventing for future generations and provides support for the core educational, safety, and equine welfare programs of the USEA. In addition, the Foundation administers educational grants for riders with the intent of preparing them to reach their goals.

USEA works with USEF to create opportunities along the eventing athlete pathway.
